

On-Call Department Head Invitation

Dear Dr. _____,

As you know, we have selected Photon, a HIPAA-compliant application that accelerates consultations, facilitating secure collaboration amongst providers throughout the continuum of care.

Patient consults are generated on Photon to alert specialists in real-time when new and relevant patient data is available such as radiology, labs, transcriptions and vitals.

We would like you to become an initial Photon user and ask for your support in joining what we call “Photon Advocates.” As one of the first users of the application you will have the opportunity to witness first-hand the features and benefits of this dynamic application. Help us champion Photon amongst your peers.

Most importantly, your leadership will be key to helping us successfully implement Photon at this facility.

We are looking forward to your participation and getting the process started. Thank you in advance for your support.

Best,

CEO
